SUMMARY

Electrical and Electronics Engineering undergraduate with hands-on experience in Embedded Systems, Automotive Electronics, and Full-Stack Development. Strong knowledge of microcontrollers, Java, and web technologies, with familiarity in using AI tools for development and problem-solving. Known for quickly understanding new concepts and applying them to solve real-world engineering problems.

TECHNICAL EXPERTISE

- **Programming:** C, Java, SQL, HTML, CSS, JavaScript
- **Core Skills:** Embedded Systems, Microcontrollers, Analog & Digital Electronics, Automotive Electronics
- **Tools:** Git, VS Code, GITHUB, STM32CubeIDE, Arduino IDE, MATLAB, Simulink, EasyEDA, TSMaster
- **Soft Skills:** Quick Learner, Strong Analytical Skills, Problem Solving, Communication, Adaptability, Accountability

PROJECTS

QR-Based Bike Ignition System

- Role: Designed and implemented an ESP32-based QR-enabled smart bike ignition system with secure authentication and keyless vehicle access.

Portfolio Website Development

- Role: Developed and deployed the portfolio website and structured content for effective presentation using HTML, CSS and JavaScript.

Civic-issue Reporting System

- Role: Worked as a Full Stack Developer using Spring Boot, REST APIs, PostgreSQL, and HTML/CSS/JavaScript that allows citizens to report issues in real time and enables live tracking.

Gas Leakage Detection and Human Monitoring System

- Role: Developed a GSM-based gas leakage monitoring system using Embedded C and Arduino IDE for real-time gas detection and emergency SMS alerts

INTERNSHIP

Hocus Pocus VFX Pvt. Ltd., CHENNAI Intern | 2 Week

February 2026

- Assisted in coordinating digital production tasks in a deadline-driven environment; supported client requirement mapping and cross-team execution.

SRIWIN ELECTRIC - SALEM Intern | 1 Week

Dec 2025

- Gained hands-on experience in electrical panel design, wiring, and testing.

BSNL - SALEM Intern | 1 Week

July 2024

- Learned the operation and maintenance of telecom infrastructure and communication equipment.

AREAS OF INTEREST

Embedded Systems | Hardware Design | Full-Stack Development | Software Development | Research & Development

EDUCATION

Bachelor's in Electrical Engineering

Sep 2023 - May 2027

Knowledge Institute of Technology - SALEM. CGPA - 8.21

H.S.C

June 2022 - May 2023

Mount Mary Matric Higher Secondary School - SALEM. Percentage - 83.33
